

## GENERAL

**CLASSIFICATION:** Polymerically bound recycled rubber

	PROPERTIES	Specifications
1	Roll Dimensions	
	1.1      Length                      Metres	20.00
	1.2      Width                      Metres	1.00
	1.3      Area                      Metres²	18.00
	1.4      Weight                      Kg	45.50 ± 0.50
2	Colour	Black
3	Product Weight                      g/m²	2190 ± 200
4	Sheet Thickness                      mm	3.0 ± 0.30
5	Backing Material	NIL
6	Packaging	Clear plastic wrap with cardboard core
7	Fire Propagation	Conforms to BS 479-1987

Airstep Acoustaloy is designed to be an impact sound insulating underlay that is made from 100% recycled rubber. The underlay is produced in a continuous sheet with square trimmed edges and is to be free of holes, imperfections and inclusions.

The packaging incorporates a solid cardboard core to support the underlay and it is packaged in a clear plastic wrap sealed with tape.
